

Easy on you. Gentle on your bank account.

On Demand Care

Vital Health connects healthcare professionals with our members, meeting them where they are – at home, at work, or on the go. Virtually or in-person.

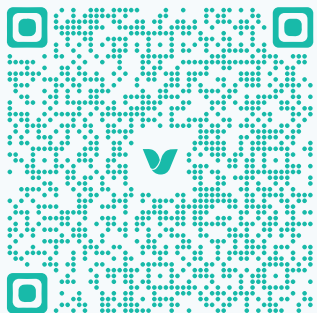

Revitalize Your Employees

Health insurance plans are avoided by hourly workers and don't offer coverage that they need. Alarming increases in healthcare costs put employers in no-win situations.

Quality Care at an Affordable Cost

We're reshaping "the way it's always been done" by eliminating brick and mortar locations, canceling copays and deductibles, and erasing in-network/out of network headaches. You could say we're paying it forward.

Expect More From Healthcare.
